HOW SOLBOX WORKS

The SOLBOX Compensation Plan is based on a Matrix Structure combined with a Rank Achievement System, ensuring that users are fairly rewarded for their direct efforts and team-building activities.

When you introduce 3 or more gift card holders this is how the spill over works. You can at any time upgrade and open up 10 slots if you decide to build a wider organisation and have a bigger income potential.

ADVANCING TO A NEW RANK

Each time you reach a new rank for the first time, you will receive 4 additional weeks to maintain or advance to the next rank.

Your accumulated volume is carried over into this new period.

MAINTAINING YOUR RANK

Within these 4 weeks, if you reach the next rank, you gain another 4 weeks and keep your total accumulated volume.

If you fail to reach the next rank within 4 weeks, your rank will be adjusted based on your new volume.

50% VOLUME SAFETY NET

If you generate at least 50% of your current rank's volume within 4 weeks, you can maintain your current rank and receive 4 more weeks to attempt rank advancement.

If you fail to generate at least 50% of the required rank volume, you will be downgraded to the rank corresponding to your volume.
